	X			Facility retains copies of generator notifications and certifications.												7(c)(1)			

Date of Inspection 12/16/91 Identification Number PAD004336350  
 Company, Installation Name PPG Industries, Works No. 5  
 County Armstrong Municipality Ford City Borough

① One container in the accumulation area where waste paint drums are also filled, was full of paint sludge but was unlabeled. 18 drums were present but only one was unlabeled. This violation was corrected during this inspection with attachment of an appropriate label.

② One of the remaining 17 drums (excepting ① above) was not properly dated with the appropriate accumulation date. This violation was corrected during this inspection.

### T.C. Rule

③ A knowledge determination was done where appropriate and a TCL analysis was done on all wastes where a knowledge determination could not be positively done.

### Land Disposal Restrictions Inspection Comments Section

④ RCRA LIR notification and certification documents accompanied all shipments of hazardous wastes. The status of that waste is listed in ④ on page 1.

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Waste Management, inspected the above installation. The findings of this inspection are shown in this report. Any violations which were uncovered during the inspection are indicated. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Notification will be forthcoming, confirming any violations indicated herein and listing any additional violations.

Hazardous Waste Inspection Report  
Comments - Part C

Date of Inspection 4/18/91 Identification Number PAD004 336350  
Company, Installation Name PPG Industries Inc, Works No. 5  
County Armstrong Municipality Ford City Borough

PPG Works #5 is a manufacturer of glass windows (Twindow units) for commercial/industrial construction. The hazardous wastes generated at this facility are: paint washing sludge (D008/D006) Tri chlor for sealant cleaning (F002) and mineral spirits for silk screen cleaning (D001). The waste handling program is generally well operated and documentation is very good, no violations were observed during this inspection.

- ① All accumulated HW were shipped yesterday (4/17/91), the only wastes on site are protective clothing used during preparation for shipment.

LAND DISPOSAL RESTRICTIONS INSPECTION COMMENTS

- ② Paper LDR notification and certification documents are attached to all manifests accompanying HW shipments. All wastes were either shipped for recycling, or treated to non-hazardous levels prior to landfilling.

TC RULE

- ③ A TCLP Analysis has been done on all HW shipped since my last inspection, analysis (lab forms) are present on site.

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Waste Management, inspected the above installation. The findings of this inspection are shown in this report. Any violations which were uncovered during the inspection are indicated. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Notification will be forthcoming, confirming any violations indicated herein and listing any additional violations.

Hazardous Waste Inspection Report  
Comments - Part C

Date of Inspection 2/7/91 Identification Number PAD004336350  
Company, Installation Name PPG Industries Inc., Works No. 5  
County Armstrong Municipality Ford City Borough

PPG Works No 5 is a manufacturer of glass windows (insulated) for commercial/industrial construction. The hazardous wastes generated at this facility are paint washing sludge, (D008), Tri-chlor for sealant cleaning (F002) and mineral spirits for silk screen cleaning (D001). The waste handling program is generally well operated and documented. No violations were observed.

- ① All accumulated HW were shipped on 1/25/91 (F002 D001) and on 1/29/91 (D008) from this facility. No hazardous waste containers have yet been filled, but the accumulation area complies with 265(g).

LAND DISPOSAL RESTRICTIONS INSPECTION COMMENTS

- ② Proper LDR notification and certification forms accompanied all shipments of HW to the TSD. Photo-copies of these forms are attached to all manifests.

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Waste Management, inspected the above installation. The findings of this inspection are shown in this report. Any violations which were uncovered during the inspection are indicated. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Notification will be forthcoming, confirming any violations indicated herein and listing any additional violations.

Hazardous Waste Inspection Report  
Comments - Part C

Date of Inspection 6/25/90 Identification Number PAD 004 336350  
Company, Installation Name PPG Industries Inc, Works #5  
County Armstrong Municipality Ford City Borough

- ① A previous inspection conducted on 2/13/89 revealed that the HW containment structure did not comply with 265 (g). This inspection revealed that this has been corrected by the installation of a containment structure.
- ② A new improved PPC plan, complete with current changes has recently been completed and will be mailed to the Department.

LAND DISPOSAL RESTRICTIONS INSPECTION COMMENTS

- ③ All Land Ban wastes were manifested with proper "Notice of Land Disposal Restriction of Waste" notification. These wastes (solvents) are shipped for recycling operations, not for disposal. 0008 is a non-applicable 3rd Third waste.

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Waste Management, inspected the above installation. The findings of this inspection are shown in this report. Any violations which were uncovered during the inspection are indicated. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Notification will be forthcoming, confirming any violations indicated herein and listing any additional violations.

## Hazardous Waste Inspection Report Generators — Part B

[illegible]

Hazardous Waste Inspection Report  
Comments - Part C

Date of Inspection 2/26/88 Identification Number \_\_\_\_\_  
Company, Installation Name PPG Industries Inc., Works No. 5  
County Armstrong Municipality Ford City

PPG Industries Inc., Works No. 5, is a manufacturer of insulated window units (two window, thermopane) for commercial construction, which is located in Ford City, PA. Currently only two (2) waste streams (hazardous) are regularly generated, Trichlor (F001), used for cleaning silicon seal injectors, and paint sludge (D008), generated in the paint washing area filter press. A plant "house-cleaning" program was recently started by the new environmental supervisor, Stewart Beattie. Several containers of product (Pam material) were discovered, they are awaiting analysis and disposal. Several wastes have already been reidentified, and disposed of, see (4). The operation is well organized and documented, no violations were observed.

Comments:

- ① Please make a photo-copy of quarterly reports currently being sent to PA-DER, central office, and mail it to my office.
- ② The new environmental supervisor, Stewart Beattie, is implementing the annual training program updates this year.
- ③ Annual changes are being made to the PPC plan (yearly revisions), when finished, a copy will be sent to me for approval.

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Waste Management, inspected the above installation. The findings of this inspection are shown in this report. Any violations which were uncovered during the inspection are indicated. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Notification will be forthcoming, confirming any violations indicated herein and listing any additional violations.

## Part C - Comments

Date of Inspection 11/29/84 Identification Number PAD 00433 6356  
Company, Installation Name PPG Industries Inc  
County Armstrong Municipality Ford City

Hazardous waste (P008 sludge) accumulation has been moved indoors near one of the vacuum filters. Two drums had apparently been damaged by accident to allow sludge leakage. (There was no evidence of corrosion.)

JAN 21 1985

This inspection report is official notification that a representative of the Department of Environmental Resources, Bureau of Solid Waste Management, inspected the above installation. The findings of this inspection are shown in this report. Any violations which were uncovered during the inspection are indicated. Violations may also be discovered upon examination of the results of laboratory analyses and review of Department records. Notification will be forthcoming, confirming any violations indicated herein and listing any additional violations.

Re: Facility Name: PPG Industries, Inc. - Works No. 5  
Facility Location: 500 Third Avenue  
Ford City, PA 16226

Dear Mr. Crossett:

The Environmental Protection Agency (EPA) has received Part A of a permit application pursuant to Section 3005 of the Resource Conservation and Recovery Act for the facility referenced above. We have received your request to withdraw your permit application on May 14, 1982. Accordingly, the Agency is returning the application.

Sincerely yours,

Ford City, PA 15226

RE: PPG Industries, Incorporated  
Works No. 5  
ID No. PAD004336350  
Ford City  
Armstrong County

Gentlemen:

This letter constitutes a formal request for Part B of your application for a Hazardous Waste Management Facility Permit under the Hazardous Waste Management Regulations, 25 PA Code Chapter 75, Subchapter D, for the facility referenced above. This request is made under the authority of Section 75.265 (z) (6) of the regulations. You should refer to the hazardous waste management regulations that appeared in the Pennsylvania Bulletin dated September 4, 1982, which was recently mailed to you for the requirements of the Part B application. Your Part B application must be submitted no later than six months from the date of this notice. If there is information that is being claimed as confidential, indicate this according to the requirements of Section 75.265(z)(16).

Enclosed are reference checklists for your Part B application that are to be used to insure your application contains the minimum information required. These checklists are to be used to assist you in your Part B application and our subsequent review, although the checklists are not a substitute for reviewing and addressing the hazardous waste regulations themselves. Because you may be anticipating additional facilities at your location, we have included checklists for every type of facility covered by the Department requirements. Please use only those checklists that apply to the types of facilities for which you are making application.

Your Part B application will be reviewed for a hazardous waste management TSD Permit by both the U.S. Environmental Protection Agency and the Department of Environmental Resources until the Commonwealth of Pennsylvania receives Phase II Interim Authorization under the RCRA Program to solely administer a permitting program.

February 18, 1983

You should submit the Part B application to both agencies for their concurrent review. This would require that the hazardous waste requirements under Pennsylvania regulations as well as the hazardous waste management requirements under the Federal program would have to be addressed.

When completed please transmit your application and five copies (or seven copies if there is an incineration facility) to our office, and if you have any questions or desire to have a pre-application conference, please contact us.

Sincerely,

Charles A. Duritsa  
Regional Solid Waste Manager

Ms. Shirley D. Bulkin  
Chief, Administrative Support Section  
Permit Enforcement Branch  
U.S. Environmental Protection Agency  
Region III  
6th and Walnut Streets  
Philadelphia, PA 19106

Dear Ms. Bulkin:

When RCRA regulations became effective, PPG Industries filed pre-cautionary applications at several Region III locations for permits to "store" hazardous waste. This was done due to our initial interpretation and understanding of RCRA regulations. Since the regulations have become more clearly defined we are herewith requesting EPA withdraw our interim permits from further consideration for "storage" of hazardous waste at the below named locations. These locations have not been used for hazardous waste "storage" (as defined by RCRA) in the past, and we do not foresee this need in the future. Since hazardous waste will still be generated at these facilities, EPA I.D. Numbers should be retained. Also, Mr. Paul Gotthold of your office informed me that there is no need for us to contact the PA DER as this would be taken care of by you.

If you have any questions on this, please call me at 412/434-4149.  
Thank you for your attention to this matter.

August 19, 1981

Mr. J. R. Meisenheimer  
PPG Industries, Inc. - Works No. 5  
500 Third Avenue  
Ford City, PA 16226

Dear Mr. Meisenheimer:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

EO 17 changed to D008 } computer amendments  
FO 18 changed to D008 } 8/25/81

CONDITIONS OF OPERATION DURING  
INTERIM STATUS

Date Prepared: August 19, 1981 AMENDED

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

1. Facility name, location, and EPA Identification Number.

Name: PPG Industries, Inc. - Works No. 5

Location: 500 Third Avenue  
Ford City, PA 16226

EPA I.D. No.: PAD 00 433 6350

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265.

Owner's Name: Mr. G. H. Crossett-Vice President

Operator's Name: Mr. J. R. Meisenheimer-Plant Manager

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated.

<u>PROCESS</u>	<u>DESIGN CAPACITY</u>
<u>S01</u>	<u>22,000 Gals.</u>
<u>T01</u>	<u>18,500 Gals/Day</u>
<u>      </u>	<u>      </u>
<u>      </u>	<u>      </u>

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid waste exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers.

SUBJECT: Temporary suspension of Paint Wastes F017 and F018 from  
regulation as a listed hazardous waste

Dear Sirs:

The paint wastes in our permit application for interim status contain lead in the form of low temperature melting frit.

Therefore, we request that D008 for lead be added to the interim status list IV that this facility may handle.

Respectfully yours,

A handwritten signature in black ink, reading 'James H. Elliott'. The signature is written in a cursive style with a large, stylized 'J' and 'E'.

Mr. G. H. Crossett  
PPG Industries, Inc.-Works No. 5  
500 Third Avenue  
Ford City, PA 16226

Dear Mr. Crossett:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

If you have any questions concerning this letter, please write to the address shown or call Bill Walsh at 215/597-1230.

Sincerely yours,

*Shirley D. Bulkin*

CONDITIONS OF OPERATION DURING  
INTERIM STATUS  
AMENDED

Date Prepared: August 19, 1981

The information shown below is based solely on the information that the owner and operator of this facility submitted in Part A of the Hazardous Waste Permit Application. This is not a determination by EPA that this facility is an environmentally acceptable facility for treating, storing or disposing of the hazardous wastes listed below.

I. Facility name, location, and EPA Identification Number.

Name: PPG Industries, Inc. - Works No. 5

Location: 500 Third Avenue  
Ford City, PA 16226

EPA I.D. No.: PAD 00 433 6350

II. EPA considers the following to be the owner or operator of the facility and therefore the person(s) who must comply with the requirements set forth in 40 CFR Parts 122 and 265.

Owner's Name: Mr. G. H. Crossett- Vice President

Operator's Name: Mr. J. R. Meisenheimer-Plant Manager

III. During the period of interim status, the facility may use only the following processes for treating, storing or disposing of hazardous waste, up to the design capacities that are indicated.

<u>PROCESS</u>	<u>DESIGN CAPACITY</u>
<u>S01</u>	<u>22,000 Gals.</u>
<u>T01</u>	<u>18,500 Gals/Day</u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>
<u> </u>	<u> </u>

IV. During the period of interim status, the facility may handle only the hazardous wastes with the following EPA Hazardous Waste Numbers, and/or solid waste exhibiting hazardous characteristics with the following EPA Hazardous Waste Numbers.

<u>F001</u>	<u>F003</u>	<u>F005</u>	<u>D008</u>	<u>U002</u>
<u>U122</u>	<u>U239</u>	<u>D001</u>	<u> </u>	<u> </u>

**JUL 24 1981**

Mr. Joseph R. Meisenheimer  
PPG Industries Inc. - Works No. 5  
500 Third Avenue  
Ford City, PA 16226

Dear Mr. Meisenheimer:

This is to acknowledge that the Environmental Protection Agency has completed processing the information submitted in your Part A Hazardous Waste Permit Application. It is the Agency's opinion, based on the assumption that the information submitted is complete and accurate, you as an owner or operator of a hazardous waste management facility have met the requirements of Section 3005(e) of the Resource Conservation and Recovery Act (RCRA) for Interim Status. EPA has not verified the information submitted. If it is determined that the information is incomplete or inaccurate, you may be asked to provide additional information or in certain circumstances it may be determined that you do not qualify for interim status. In addition, this notice does not preclude a citizen from taking legal action under the provisions of Section 7002 of RCRA.

A facility not meeting the requirements for interim status under Section 3005 of RCRA may be required to close until such time as a hazardous waste permit is issued. Interim status may also be terminated, according to procedures in 40 CFR Part 124, if the owner or operator fails to furnish additional information which EPA requests in order to process a permit application.

As an owner or operator of a hazardous waste management facility, you are required to comply with the interim status standards as prescribed in 40 CFR Parts 122 and 265 or with State rules and regulations in those States which have been authorized under Section 3006 of RCRA. In addition, you are reminded that operating under interim status does not relieve you from the need to comply with all applicable State and local requirements.

The enclosure to this letter identifies the processes your facility may use, their design capacities, and types of waste your facility may accept during interim status. This information was obtained from the Part A Permit Application. If you wish to handle new wastes, change processes, increase the design capacity of existing processes, or change ownership or operational control of the facility, you may do so only as provided in 40 CFR Sections 122.22 and 122.23.

If you have any questions concerning this letter, please write to the address shown or call Bill Walsh at 215/597-1230.

Sincerely yours,

*Shirley D. Bulkin*

Re: Paint Wastes

EPA has completed its initial review of your application to treat/store/dispose of hazardous waste under the Resource Conservation and Recovery Act (RCRA). The paint wastes listed as being handled by your facility have been temporarily suspended from regulation as a listed hazardous waste. An amendment to 40 CFR Part 261.32, Hazardous Waste from Specific Sources, was published in the Federal Register on January 16, 1981. This amendment temporarily suspended the listing of all wastes from the manufacture of paints (EPA Hazardous Wastes Nos. F017, F018, K078, K079, K081, K082) until further study on those wastes has been conducted. However, wastes which exhibit any of the hazardous waste characteristics (i.e. reactivity, ignitability, corrosivity, and EP toxicity) as defined in 40 CFR Part 261 remain subject to regulation under RCRA.

EPA requests that you make a determination as to whether or not the waste streams listed on your application are hazardous by one or more of the general characteristics. Ignitability and EP toxicity would be the characteristics which would most likely cause paint manufacturing wastes and residues to be defined as a hazardous waste. In order to properly process your permit application and avoid further inquiries, a response within 10 days would be beneficial to yourself and EPA.

If you have any questions, please do not hesitate to contact Bill Walsh at (215) 597-1230.

Re: Acknowledgment of Application for  
a Hazardous Waste Permit

This is to acknowledge that the Environmental Protection Agency has received: (1) A notification pursuant to Section 3010 of the Resource Conservation and Recovery Act for the facility located at the address shown above; and (2) Part A of a Hazardous Waste Permit Application for that facility, including a signed statement that the operation of the facility, or its construction, began prior to November 19, 1980. While the information provided by these submissions has not been fully reviewed for completeness or accuracy, EPA will accept this information as an initial qualification for interim status pursuant to Section 3005 of the Act. If after further review of this information, EPA determines that the owner or operator did not fulfill all the requirements for interim status, EPA may treat the owner or operator as not having qualified for interim status pursuant to that section and will advise the owner or operator of that determination. Facility owners and operators with interim status must comply with the standards set forth at 40 CFR Part 265 until a permit is issued. Interim status may be terminated if the owner or operator fails to furnish any additional information requested by EPA in order to process a permit application.

GENERAL		GENERAL INSTRUCTIONS	
LABEL ITEMS			
I. EPA I.D. NUMBER		If a preprinted label has been provided in the designated space. Review the information carefully; if any of it is incorrect through it and enter the correct data appropriate fill-in area below. Also, if the preprinted data is absent (the area left of the label space lists the information that should appear), please provide it proper fill-in area(s) below. If the information is complete and correct, you need not complete items I, III, V, and VI (except VI-B must be completed regardless). Complete items if no label has been provided. Read the instructions for detailed item conditions and for the legal authorizations which this data is collected.	
III. FACILITY NAME			
V. FACILITY MAILING ADDRESS			
VI. FACILITY LOCATION			
PPG INDUSTRIES, INC. Works No. 5 500 Third Avenue Ford City, PA 16226 PLEASE PLACE LABEL IN THIS SPACE			

## II. POLLUTANT CHARACTERISTICS

INSTRUCTIONS: Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your activity is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.

SPECIFIC QUESTIONS	MARK 'X'			SPECIFIC QUESTIONS	MARK		
	YES	NO	FORM ATTACHED		YES	NO	AT
A. Is this facility a publicly owned treatment works which results in a discharge to waters of the U.S.? (FORM 2A)		X		B. Does or will this facility (either existing or proposed) include a concentrated animal feeding operation or aquatic animal production facility which results in a discharge to waters of the U.S.? #### IV. DESCRIPTION OF HAZARDOUS WASTES

**A. EPA HAZARDOUS WASTE NUMBER** — Enter the four-digit number from 40 CFR, Subpart D for each listed hazardous waste you will handle. If you handle hazardous wastes which are not listed in 40 CFR, Subpart D, enter the four-digit number(s) from 40 CFR, Subpart C that describes the characteristics and/or the toxic contaminants of those hazardous wastes.

**B. ESTIMATED ANNUAL QUANTITY** — For each listed waste entered in column A estimate the quantity of that waste that will be handled on an annual basis. For each characteristic or toxic contaminant entered in column A estimate the total annual quantity of all the non-listed waste(s) that will be handled which possess that characteristic or contaminant.

**C. UNIT OF MEASURE** — For each quantity entered in column B enter the unit of measure code. Units of measure which must be used and the appropriate codes are:

ENGLISH UNIT OF MEASURE	CODE	METRIC UNIT OF MEASURE	CODE
POUNDS . . . . .	P	KILOGRAMS . . . . .	K
TONS . . . . .	T	METRIC TONS . . . . .	M

If facility records use any other unit of measure for quantity, the units of measure must be converted into one of the required units of measure taking into account the appropriate density or specific gravity of the waste.

#### D. PROCESSES

##### 1. PROCESS CODES:

**For listed hazardous waste:** For each listed hazardous waste entered in column A select the code(s) from the list of process codes contained in Item II to indicate how the waste will be stored, treated, and/or disposed of at the facility.

**For non-listed hazardous wastes:** For each characteristic or toxic contaminant entered in column A, select the code(s) from the list of process code contained in Item III to indicate all the processes that will be used to store, treat, and/or dispose of all the non-listed hazardous wastes that possess that characteristic or toxic contaminant.

**Note:** Four spaces are provided for entering process codes. If more are needed: (1) Enter the first three as described above; (2) Enter "000" in the extreme right box of Item IV-D(1); and (3) Enter in the space provided on page 4, the line number and the additional code(s).

**2. PROCESS DESCRIPTION:** If a code is not listed for a process that will be used, describe the process in the space provided on the form.

**NOTE: HAZARDOUS WASTES DESCRIBED BY MORE THAN ONE EPA HAZARDOUS WASTE NUMBER** — Hazardous wastes that can be described by more than one EPA Hazardous Waste Number shall be described on the form as follows:

- Select one of the EPA Hazardous Waste Numbers and enter it in column A. On the same line complete columns B, C, and D by estimating the total annual quantity of the waste and describing all the processes to be used to treat, store, and/or dispose of the waste.
- In column A of the next line enter the other EPA Hazardous Waste Number that can be used to describe the waste. In column D(2) on that line enter "included with above" and make no other entries on that line.
- Repeat step 2 for each other EPA Hazardous Waste Number that can be used to describe the hazardous waste.

**EXAMPLE FOR COMPLETING ITEM IV (shown in line numbers X-1, X-2, X-3, and X-4 below)** — A facility will treat and dispose of an estimated 900 pound per year of chrome shavings from leather tanning and finishing operation. In addition, the facility will treat and dispose of three non-listed wastes. Two wastes are corrosive only and there will be an estimated 200 pounds per year of each waste. The other waste is corrosive and ignitable and there will be an estimated 100 pounds per year of that waste. Treatment will be in an incinerator and disposal will be in a landfill.

LINE NO.	A. EPA HAZARD. WASTE NO (enter code)				B. ESTIMATED ANNUAL QUANTITY OF WASTE	C. UNIT OF MEASURE (enter code)	D. PROCESSES

#### V. FACILITY DRAWING

All existing facilities must include in the space provided on page 5 a scale drawing of the facility (see instructions for more detail).

#### VI. PHOTOGRAPHS

All existing facilities must include photographs (aerial or ground-level) that clearly delineate all existing structures; existing storage, treatment and disposal areas; and sites of future storage, treatment or disposal areas (see instructions for more detail).

#### VII. FACILITY GEOGRAPHIC LOCATION

LATITUDE (degrees, minutes, & seconds)										LONGITUDE (degrees, minutes, & seconds)									
4	0	4	5	4	5	N	7	9	3	2	0	0	W						
65	66	67	68	69	70	71	72	73	74	75	76	77	78	79					

#### VIII. FACILITY OWNER

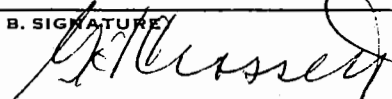

☒ A. If the facility owner is also the facility operator as listed in Section VIII on Form 1, "General Information", place an "X" in the box to the left and skip to Section IX below.

B. If the facility owner is not the facility operator as listed in Section VIII on Form 1, complete the following items:

1. NAME OF FACILITY'S LEGAL OWNER										2. PHONE NO. (area code & no.)									
E										55 56 - 58 59 - 61 62 -									
3. STREET OR P.O. BOX										4. CITY OR TOWN									
F										5. ST. 6. ZIP CODE									
19 18 - 49 15 16										40 41 42 47 - 51									

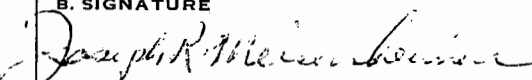

#### IX. OWNER CERTIFICATION

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

A. NAME (print or type)	B. SIGNATURE	C. DATE SIGNED
G. H. Crossett - Vice President		11/12/80

#### X. OPERATOR CERTIFICATION

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

A. NAME (print or type)	B. SIGNATURE	C. DATE SIGNED
Joseph R. Meisenheimer		October 30, 1980

# IX. DESCRIPTION OF HAZARDOUS WASTES (continued from front)

**A. HAZARDOUS WASTES FROM NON-SPECIFIC SOURCES.** Enter the four-digit number from 40 CFR Part 261.31 for each listed hazardous waste from non-specific sources your installation handles. Use additional sheets if necessary.

1 F 0 0 1 23 - 26 7 23 - 26	2 F 0 0 3 23 - 26 8 23 - 26	3 F 0 0 5 23 - 26 9 23 - 26	4 F 0 1 7 23 - 26 10 23 - 26	5 F 0 1 8 23 - 26 11 23 - 26	6  23 - 26 12 23 - 26
---	---	---	--	--	-----------------------------------

**B. HAZARDOUS WASTES FROM SPECIFIC SOURCES.** Enter the four-digit number from 40 CFR Part 261.32 for each listed hazardous waste from specific industrial sources your installation handles. Use additional sheets if necessary.

13 23 - 26 19 23 - 26 25 23 - 26	14 23 - 26 20 23 - 26 26 23 - 26	15 23 - 26 21 23 - 26 27 23 - 26	16 23 - 26 22 23 - 26 28 23 - 26	17 23 - 26 23 23 - 26 29 23 - 26	18 23 - 26 24 23 - 26 30 23 - 26
---	---	---	---	---	---

**C. COMMERCIAL CHEMICAL PRODUCT HAZARDOUS WASTES.** Enter the four-digit number from 40 CFR Part 261.33 for each chemical substance your installation handles which may be a hazardous waste. Use additional sheets if necessary.

31 U 0 0 2 23 - 26 37 23 - 26 43 23 - 26	32 U 1 2 2 23 - 26 38 23 - 26 44 23 - 26	33 U 2 3 9 23 - 26 39 23 - 26 45 23 - 26	34 23 - 26 40 23 - 26 46 23 - 26	35 23 - 26 41 23 - 26 47 23 - 26	36 23 - 26 42 23 - 26 48 23 - 26
--	--	--	---	---	---

**D. LISTED INFECTIOUS WASTES.** Enter the four-digit number from 40 CFR Part 261.34 for each listed hazardous waste from hospitals, veterinary hospitals, medical and research laboratories your installation handles. Use additional sheets if necessary.

49 23 - 26	50 23 - 26	51 23 - 26	52 23 - 26	53 23 - 26	54 23 - 26
---------------	---------------	---------------	---------------	---------------	---------------

**E. CHARACTERISTICS OF NON-LISTED HAZARDOUS WASTES.** Mark "X" in the boxes corresponding to the characteristics of non-listed hazardous wastes your installation handles. (See 40 CFR Parts 261.21 - 261.24.)

☒ 1. IGNITABLE  
(D001)

☐ 2. CORROSIVE  
(D002)

☐ 3. REACTIVE

## GENERAL INSTRUCTIONS

If a preprinted label has been provided in the designated space. Review the information carefully; if any of it is incorrect, fill in the area below. Also, the preprinted data is absent (the area left of the label space lists the information that should appear), please provide proper fill-in area(s) below. If the information is complete and correct, you need not complete items I, III, V, and VI (except VI must be completed regardless). Complete items if no label has been provided, the instructions for detailed information and for the legal authorization which this data is collected.

I. EPA I.D. NUMBER

III. FACILITY NAME

V. FACILITY MAILING ADDRESS

VI. FACILITY LOCATION

PPG INDUSTRIES, INC.

Works No. 500

500 Third Avenue

PLEASE PLACE LABEL IN THIS SPACE

## II. POLLUTANT CHARACTERISTICS

**INSTRUCTIONS:** Complete A through J to determine whether you need to submit any permit application forms to the EPA. If you answer "yes" to any of the questions, you must submit this form and the supplemental form listed in the parenthesis following the question. Mark "X" in the box in the third column if the supplemental form is attached. If you answer "no" to each question, you need not submit any of these forms. You may answer "no" if your facility is excluded from permit requirements; see Section C of the instructions. See also, Section D of the instructions for definitions of bold-faced terms.
